Press Release

For Immediate Release:

Transfer Master Products, Inc. - American Massage Products Adjustable Bed Division is back!

February 29th, 2008

POSTVILLE, IA – American Massage Products Adjustable Bed Division is back up and running! In July 2006, the factory closed its doors. Transfer Master Products, Inc., of Postville, Iowa, bought the rights to the name and the intellectual property. President Aaron Goldsmith explained, “We felt that this was great opportunity for our company and a good fit! We studied the beds, reengineered them and put the new improved beds back on the market!”

Scott Carpenter, American Massage’s New Show Director was filled with praise for the rebirth of the company. “We have shown the bed now in three regional shows and the response from our customers was outstanding. Despite competition and a slow economy, our New American Massage Beds have sold quite well! What the customers seem to most appreciate is the faithfulness of the new design to deliver a superb massage therapy.”

Carpenter added “American was always known as the premier adjustable bed for massage therapy. We see many competitive companies try to cheaply copy the feel of our therapy but our customers know better. Transfer Master has restored the quality, reliability and uniqueness to the American Line.”

For Release 9 am, February 29th, 2008

American Massage Products Adjustable Bed Division is back!

Goldsmith further commented, “ We will be releasing a brand new model shortly. For over 15 years, Transfer Master has stood for quality in the medical market. We are bringing this discipline to the comfort market with the American Massage Adjustable Bed Division.”
